What's been your best-selling veil in 2015? Why do you think this is?

Our best seller for 2015 is our cathedral length, corded lace Cyanea veil. The cut and the lace are very versatile and it's the perfect accompaniment for this season's gowns.

Are you launching a brand new veil collection for 2016, or adding to existing collections?

We always keep designs that are popular and we keep adding new veils every year.

What do you predict the key veil trends will be for the coming season with regards to fabric, length, colour and embellishment?

We're seeing a steady rise in classic cathedral length veils, the more embellished the better!
